As a Program Manager specializing in Learning Solutions at Genpact with 19+ years of experience and Certified Scrum Master (CSM) credentials, I lead the delivery of enterprise learning solutions, eLearning programs, digital transformation, and executive communication initiatives across global platforms. My expertise includes AI-driven creative strategy, UX/UI design, gamified learning, intelligent content development, and multimedia experiences that enhance engagement, operational efficiency, and business impact.

I partner with global stakeholders to align project delivery with strategic business objectives by leveraging AI-powered workflows, automation, and data-driven insights to optimize execution, resource planning, and governance within defined SLAs. I also drive performance reporting and leadership analytics while championing emerging AI technologies, scalable digital transformation, and continuous innovation to elevate user experience and cross-functional collaboration.
